

Clark Forklift

At present, there are over 350,000 Clark forklifts performing worldwide, and in excess of 250,000 in commission in North America alone. With five main lines across the world, Clark is proud to be one of the most expansive corporations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand-driven lift trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 distinctive brands of lift trucks, with components covering more than 120,000 specialized components for all of its automated equipment. Your regional Clark Seller is your complete source for availability of all your parts needs offered by Clark Totalift.

Clark has a extraordinary Parts Supply team. The items warehouses are conveniently situated in Changwon, South Korea and Louisville, Kentucky to guarantee exceptional service to both their customers and their dealers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing producers. Motivated to provide the highest level of value and service to our users, Clark remains on the cutting edge when it comes to improving efficiency and benefiting performance.

Internationally, Clark has one of the most amazing supplier support networks. With over 550 locations globally, dealer representation in over 80 nations and 230 locations in North America, their high level of dedication to their customers predominates the materials handling industry.

Clark proudly remains an innovative leader of the industrial equipment industry, pioneering protection features such as the worker restraint system. This exceptional dedication to safety is now a standard feature on every forklift.

Clark has a uncompromising objective to possess the No. 1 quality system in the industry which is demonstrated by their dedication to ISO standards. Clark, is the first manufacturer of forklifts and lift trucks to be globally certified with quality standard ISO 9001 in all of its production facilities. Furthermore, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be prepared for any environmental limitations, thus placing them in a prevailing industry position.

Resource Efficient Manufacturing

Clark has selected the system of "Lean Manufacturing" at all of its assembly facilities for the reason that this method is extremely economical and enables minimal use of resources. Developed to guarantee maximum proficiency, this system is designed to discover and acknowledge the most efficient methods for manufacturing facility stewardship. Clark has concluded this transition of its Korean facility. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and production efficiencies.

Engineering

Clark's product engineers and suppliers communicate together to enhance the effectiveness and brilliance of their products while minimizing expenses. The new value engineering program combines progressive product growth and provides improved consumer support and service within the industry.
